ABOUT US

Venjoh Engineering Ltd traces its roots back to 2002, when it was founded by Mr. Caleb Adoyo and Mr. Onyango Bernard. The company initially operated under the name Kowira Technical Services. At this stage, it functioned as an unincorporated business entity.

In 2004, the business underwent rebranding and began operating as Caleb Steel Fabricators, a name it retained until 2019. Throughout this period, the company steadily built a reputation for quality craftsmanship and reliable service delivery, despite not being formally incorporated.

In 2019, the business was officially registered as a limited liability company under the name Venjoh Engineering Ltd with the Uganda Registration Services Bureau (URSB). This marked a significant milestone, reflecting the company's growth, stability, and long-term vision.

VISION, MISSION AND CORE VALUES

Vision

"To become the leading and most dependable construction contractor in the East African Community, known for excellence and integrity."

Mission

To deliver affordable, and sustainable construction services that meet the evolving needs of the East African Community in a honest and professional manner.

Core Values

Professionalism:

Professionalism is the cornerstone of our reputation and how we conduct ourselves daily. It means we consistently uphold the highest standards of conduct, competence, and integrity in all our interactions. We are committed to respectful communication, reliable performance, and a strong work ethic, ensuring we always represent ourselves and our company with distinction. By embodying professionalism, we build trust, inspire confidence, and deliver exceptional service, reinforcing our commitment to excellence in every endeavor.

Honesty:

Honesty is the bedrock of our operations and relationships. We always strive to act with unwavering integrity and transparency in every interaction, from our internal teams to our customers and partners. We are committed to being truthful, authentic, and ethical, ensuring our decisions and communications are always straightforward and trustworthy. By upholding honesty, we foster strong relationships, build enduring trust, and maintain a reputation for reliability and fairness in the marketplace. This core value guides our actions, empowering us to operate with accountability and earn lasting respect.

Efficiency:

Efficiency is fundamental to how we operate and deliver value. We constantly strive to optimize our processes, resources, and time to achieve the best possible outcomes with minimal waste. We are committed to smart work, embracing innovative solutions and continuous improvement to enhance productivity and reduce unnecessary effort. By prioritizing efficiency, we ensure we deliver high-quality results promptly, maximize our impact, and provide exceptional value to our customers and stakeholders. This core value drives us to be agile, resourceful, and effective in everything we do.

Sustainability:

Sustainability is central to our vision for a thriving future. It means we are committed to meeting the needs of the present without compromising the ability of future generations to meet their own needs. This involves making responsible choices that consider the environmental impact of our operations, fostering social equity within our communities, and ensuring the long-term economic viability of our business. By integrating sustainability into every decision, we aim to conserve resources, reduce our footprint, and contribute positively to both the planet and society, ensuring enduring value for all stakeholders.

- Bridges and pedestrian pathways

6. Project Planning and Management

- Systematic approach to planning, executing, monitoring, controlling, and closing projects to achieve specific goals within given constraints (scope, time, and budget) of construction projects.

WHY CHOOSE US?

We Value your interests

We prioritize our clients' interests and leverage our technical and professional expertise to provide informed guidance. We uphold the integrity of contractual agreements and ensure that no decisions are made without our clients' knowledge and consent."

We have the experience

Our team brings a wealth of technical expertise, having collaborated with numerous engineering firms on various projects—even prior to the formal incorporation of our company. Several of our members possess over 30 years of experience in their respective fields, contributing deep industry knowledge and seasoned insight to every engagement.

We are Professionals

Honesty and integrity are the cornerstones of all our transactions. We are committed to ensuring that every aspect of our work aligns with statutory regulations, contractual obligations, and established engineering ethics.

We are always improving

We utilize the most advanced tools and technologies available at the time of project execution to ensure timely delivery. Our approach is detail-oriented, with strict adherence to project drawings and specifications to maintain the highest standards of quality

OUR CLIENTS

At Venjoh Engineering Ltd we service many businesses from a variety of industries and individuals. Our clients include;

- Private individuals with construction services needs such as residential buildings, commercial structures, apartments, etc.
- Engineering contractors who need subcontractors
- Local governments
- Private investors with construction needs

- Government parastatals responsible for infrastructure development, e.g. UNRA, KCCA, MoWT (in Uganda) and many others in various nations.
- Non-Governmental organizations (NGOs) with infrastructures to develop.
